

SHOULD MY CHILD REPORT TO SCHOOL?

Has your child tested POSITIVE for COVID-19?

NO

Has your child been in contact with someone who has tested POSITIVE for COVID-19?

NO

Does your child have COVID-19 symptoms?

YES

YES

NO

Your child should be in isolation for at least 10 days from the onset of symptoms AND at least 24 hrs (without the use of fever-reducing medication) after fever resolution AND improved symptoms.

Your child would be out of school for a MINIMUM of 10 days.

Was your child within 6 feet of a positive case for 15 minutes or more over a 24-hour period?

YES

NO

Your child should remain in quarantine at home. Contact your child's school. Your return-to-school date will be determined by the health department and/or your physician, in collaboration with the school nurse. You will also receive a return-to-school certification to be completed upon return.

Report to school. This is considered a casual contact. Your child is not at increased risk, however, we are in a pandemic and it is always safe to monitor symptoms with caution. If symptoms develop, stay home and contact your physician and school.

Please consult with your physician to determine if a COVID test should be done before returning to school. Your child should remain out of school until fever free for 24 hrs (without the use of fever-reducing medication) AND symptoms have improved.

REPORT TO SCHOOL
